Education

RIPHAH INTERNATIONAL UNIVERSITY

Bachelor of software engineering

Lahore, PK

Oct 2022 - July 2026

Professional Experience

Codingal

Coding Instructor

Oct 2025- Present

- Delivered instruction in Python, Web Development, AI, and **Git/GitHub** to students, enhancing problem-solving and computational thinking skills
- Mentored students in building interactive **web and AI-based projects**, improving project completion and engagement
- Taught core programming concepts including data structures, loops, functions, and file handling
- Guided learners in **HTML, CSS, JavaScript, and React.js**, enabling development of dynamic web applications
- Introduced version control workflows using GitHub, preparing students for collaborative development environments

Walqalum Technologies

Software Engineer Intern

July 2025 - Oct 2025

- Developed and maintained full-stack applications using **React.js and Spring Boot**, ensuring responsive and scalable systems
- Designed and optimized **MySQL database schemas**, improving query efficiency and reducing load times
- Built and integrated **RESTful APIs**, performing testing and validation using Postman
- Implemented **real-time communication features using WebSockets**, enabling live chat functionality
- Utilized **Apache Kafka** for real-time data streaming, improving system responsiveness and scalability
- Wrote **unit and integration tests using JUnit**, increasing application reliability
- Collaborated with development teams using **Git/GitHub**, participating in code reviews and version control workflows

Riphah International University

Student Assistant

Oct 2023 - Dec 2024

- Assisted faculty in preparing **programming labs, assignments, and course materials** for computer science courses
- Provided technical support during lab sessions, helping students debug code and understand core concepts
- Conducted mentoring sessions on **Data Structures, OOP, and Web Development**
- Helped students improve coding practices and problem-solving abilities

Personal Projects

Chat Application (Full-Stack Real-Time System)

- **Tech:** React.js, Spring Boot, MySQL, REST APIs, WebSockets
- Developed a real-time chat application supporting **user-to-user communication**
- Built backend services using **Spring Boot and REST APIs**
- Implemented **WebSocket-based messaging** for instant updates
- Designed admin panel to monitor and manage chat activity

Salon CLub

- **Tech:** Flutter, Dart, Firebase, Supabase, HTML, CSS, JavaScript
- Built a cross-platform salon management app with **appointment booking and service management**
- Integrated **push notifications and admin panel features**
- Designed user-friendly interfaces and ensured seamless user experience
- Managed backend services using Firebase and Supabase
- [GitHub](#)

Skills

- **Languages:** Java, JavaScript, C++, SQL, HTML5, CSS3
- **Frameworks & Tools:** React.js, Spring Boot, Express.js, Maven, JUnit
- **Technologies:** REST APIs, Apache Kafka, WebSockets
- **Databases:** MySQL, MongoDB, Firebase, Supabase
- **Tools:** Git, GitHub, Postman

Extracurricular & Volunteer Experience

- **Team Lead — Women in Computing:** Organized tech events promoting women in technology
- **Media Head — Riphah Health Society:** Managed campaigns and social media outreach
- **Vice President — Riphah Islamic Society:** Led event coordination and operations

Honors and Awards

COURSES

- Full Stack Development — NAVTTC (UET Lahore)
- Programming Fundamentals & OOP — Coursera
- Web Development — Coursera

EVENT PARTICIPATE

- **Garrison Entrepreneurship Event 2025:** Presented Flutter-based startup solution and got second position
- **NIC startup:** Pitch in NIC startup and got selected
- **Sasin School of Bangkok 2026:** Got selected in top 20 startups and pitch the idea in Bangkok
- **SEE Pakistan:** Got selected in 100 startup list
